13 June 2017

Delabie Ltd.
21/F, On Hing Building,
1 On Hing Terrace,
Central, Hong Kong

(Attn.: Mr Sebastien SPRIET)

Dear Sir,

Approval of “DELABIE” Electronic Basin Mixers

Your letter ref. HK443 dated 17 May 2017 refers.

It is noted that the fittings described below have been accepted by the United Kingdom Water Regulations Advisory Scheme (WRAS) to have complied with the requirements of the United Kingdom Water Supply (Water Fittings) Regulations / Scottish Water Byelaws when correctly installed.

Name of Manufacturer: Delabie SCS

Country of Origin: France

Brand: Delabie

Details of Fittings: Range of wall mounted, single hole, single outlet (fixed) electronically controlled tap assemblies (chromium plated brass). The flow is controlled by a solenoid valve activated via an infra-red sensor. The spout outlet incorporates plastic aerators and the inlet incorporates a plastic filter. Maximum working pressure 5.0 bar. Maximum operating temperature 60°C.

Model: 443006, 443406 & 443506

Size: ½" BSP (M)

Marking: Delabie on the end of the spout

WRAS Approval Number: 1603071

Installation Requirements: R001, R040

Expiry Date: 31 March 2021

In view of the acceptance by WRAS, this Authority has no objection to the use of the said fittings in fresh water plumbing systems subject to full adherence to Waterworks installation requirements. In particular, you are required to draw your customers' attention to the following installation requirements –

“Installation shall comply with the ‘Installation Requirements & Notes’ of the WRAS’s approval letter concerned.”

“The cold water supply to the fittings shall be drawn from the same source that supplies the hot water apparatus so as to provide a balanced pressure and to obviate the risk of scalding in the event of a restriction or failure in the water supply.”

“A stop cock or gate valve must be installed at the upstream of the fitting for manual isolation of water supply.” AND

“The main voltage operated sensor valve should comply with the electricity safety regulation for applications in bathroom, toilet etc.”

A condition of this acceptance is that the fittings to be installed should be replicas of the samples certified by WRAS and no modification should be made to the fittings. This acceptance may be withdrawn at any time if the standard of the fittings installed fails to meet that of the approved samples or if the fittings are found to be unsuitable for use in fresh water plumbing systems.

This acceptance is only applicable to the main body of the fittings, unless other specified.

For the use of the fittings in any project, the Acceptance Reference Number at the bottom of this letter must be quoted as a means of identification of acceptance of the fittings by this Authority.

Should you have any enquiries, please contact our Engineer Mr Terry KUNG at tel. no. 2294 2656.

Yours faithfully,

(CHAN Chung Kun)
for Water Authority
