wedi Sanwell wall element

Extremely robust, with integrated niche

The sturdy wall element with integrated niche is ideal for use as a shower partition wall, can be installed particularly easily and can then be directly tiled. Here, both the overall size and the niche size in the wedi Sanwell wall element can be individually customised.

Apply to joints to adjoining walls and floors...

... and glue on niche cover as required...

... press on, done!

Free-standing partition wall

The Sanwell wall element with a width of 900 mm or 1200 mm incl. niche installed in the factory is perfect for use as a free-standing wall.

Because it is made from waterproof polystyrene rigid foam, it is perfect for use as a shower partition wall, for example. Laborious construction and sealing is no longer required.

Products used

- 1 wedi Sanwell wall element ▀ as a free-standing, sturdy partition wall with niche solution
- 2 wedi Sanoasa corner seat ▀ space-saving seating
- 3 wedi building boards ▀ for the cladding of adjoining areas
- 4 wedi 610 ▀ adhesive and sealant for the watertight adhesion of joints
- 5 wedi Tools reinforcement tape ▀ for reinforcing joints
